

Know the details of every move your vehicles make.

Manage driver performance, reduce vehicle expenses, and monitor driver safety to increase productivity and reduce costs.

Performance Management Advisor (PMA) captures real-time and historical data from your vehicles and displays it in easy-to-read dataviews accessible via the Internet, anytime you need them!

MANAGE DRIVER PERFORMANCE

Get accurate, detailed driver and vehicle information in a clear, concise format.

- The **Time Summary Dataview** displays detailed time summaries and percentages of drive time, park time, idle time and sleeper time. A total time summary is also available.
- The **Violations Dataview** displays a general view of fleet performance including cool down, warm up, ignition events, over speed duration and over RPM duration.
- The **RPM/Speed Matrix Dataview** demonstrates whether a selected mobile is operating efficiently by recording the amount of time spent at each speed versus each RPM interval during a specified time period.

REDUCE VEHICLE EXPENSES

Monitor fuel economy efficiencies.

- The **Fuel Economy Dataview** displays detailed fuel economy reports. You can view distance, average fuel, idle fuel, park fuel, sleeper fuel, driver fuel and total fuel used.

MONITOR DRIVER SAFETY

Monitor individual driver's safety records through driver exception reports.

- The **Mobile Events Dataview** records detailed exception events such as hard braking, excess speed, maximum over speed, idle events, excess RPM and maximum over RPM that occurred on a specified mobile over a specified period of time.

*"One of the reasons we purchased the **LoadTrak** service was for the PMA package. PMA reports are key to the business decisions we make about performance bonuses for our drivers. Plus, economy reporting, historical positions and the ability to check driver routing have helped improve efficiencies for both us and the driver."*

- J.C. Ripley, Sundog Travel, Ltd.

PMA works with the **LoadTrak** Vehicle Tracking Solution from **SaskTel**, a communications company with over 96 years of experience and more than one million customers. Feel confident in your investment knowing that with SaskTel you get stability, security, innovation and excellence.

For more information on the **LoadTrak** solution or to contact the dealer nearest you, visit www.loadtrak.com or call 1-866-LoadTrk (1-866-562-3875).
